RE: Applications of Duke Energy Progress, LLC and Duke Energy Carolinas, LLC for
Approval of Smart Saver Solar as Energy Efficiency Program
Docket Nos. 2021-143-E and 2021-144-E

Dear Ms. Boyd:

On April 27, 2022, the South Carolina Office of Regulatory Staff ("ORS") filed its Answer to the petitions for reconsideration, rehearing, and/or clarification filed by Duke Energy Carolinas, LLC, Duke Energy Progress, LLC (collectively, "Duke"), and the Solar Energy Industries Association. As identified by Duke in its responsive letter dated April 28, 2022, ORS unintentionally referenced the solar adoption rate "in" 2021 as opposed to "through" 2021. In order to clarify ORS's intent, the sentence found on the bottom of page 9 should read as follows:

He also pointed out that, based on the information provided by Duke in discovery, over 10,800 residential adoptions were anticipated in through 2021, reflecting that over 2% of DEC and DEP customers will adopt solar ~~during that period~~ through 2021. Tr. p. 463.21 at fn.3.

I apologize for the inadvertent error and appreciate Duke calling this matter to our attention. Thank you for your assistance with this matter.

Sincerely,

s/Benjamin P. Mustian
